

## **Operating instructions**

Lie comfortably (without shoes) on the massage table, place your head on the head cushion and set your body size and your desired programme on the display.

### **Our massage programmes**

In addition to individual settings, the Wellssystem Wave-Touch offers various massage programmes developed with experts, the intensity of which can be adjusted.

**Healthy back** ... relieves tension and strengthens the back.

**Strong shoulders** ... ideal for tense shoulders or neck.

**Pure relaxation** ... the feel-good massage for the whole body.

**Fit legs** ... makes tired and heavy legs fit again.

**Pick-me-up** ... full body massage for new energy.

### **Touch-Display**

The self-explanatory operation in the large, rotatable touch display works intuitively. In stand-by mode, an operating video runs that explains the most important functions.

After starting the massage, all settings can be changed - so you can choose yourself how the treatment should run. The best thing is that you don't have to move, because the display can be operated comfortably from the lying position.
